

SQUASH COURT

Squash Court was specially formulated by Durelex Paints as a superior coating solution for squash court walls where scuff and wear balance is critical. Durelex has been manufacturing water-based paints since 1946 and are experts in the field of acrylic coatings.

Application of water-based paint enables fast drying times and minimal odour; courts are ready to play on next day. This provides a cost effective solution for your business with minimal down time. Generally 20 Litres is enough for one court.

Durelex Squash Court has been the subject of exhaustive testing by both independent commercial authorities and sources within the squash court industry over a number of years.

Most operators have a story to tell about premature failure of ordinary squash court coatings, the excessive marking, the yellowing, the adhesion failures, etc.

For more detailed Product Information look at www.durelexpaints.com.au or contact our office on (02) 9638 0568.

Findings confirm Durelex Squash Court has:

- Superior adhesion to properly prepared surfaces
- Superior ability to resist marking and scuffing
- Longer Life
- Fast dry times resulting in minimal court down-time
- Superior opacity resulting in a whiter white
- Ease of application and clean up because it's water-based
- Tintable

Also available is the Red Line Marking Tape.
Dimensions: 33 metres by 48mm wide.
